Scan to download the
Godrej Digital Lock App

FEATURES

Mobile APP
The lock can be accessed remotely through mobile app, from anywhere across the globe.

Built-in Wi-Fi
Aids customers to access lock remotely.

360 Degree
Once registered, sensor recognizes up to 99 fingerprints at any angle.

OTP
One time Passcode can be generated through mobile, to restrict the access for one time usage.

Pin Code
Register up to 99 unique PINs. Save a password of 4 to 9 digits for enhanced password strength.

Time limited password
Passcode (PIN) can be generated through mobile app to access the lock for limited time duration.

RFID Card
Register up to 99 cards for multiple user access.

Audit Trial
Stay updated with lock/unlock records over app.

Mechanical Key
In case of emergency the lock can be opened with mechanical key.

Privacy Function
If the privacy button is on, the lock can't be opened from outside by Finger Print, RFID Card or PIN, Only mechanical override and master password is possible.

CATUS **CONNECT**

Alarms - Anti-Prank
Lock stops functioning for 3 minutes after 3 failed attempts and generates a series of alarms.

Adjustable Spy Code
Random numbers can be added before or after the password in the presence of strangers, thereby maintaining secrecy.
For E.g if the password is 1234 the lock can be opened by entering either
1) 56781234#
2) 12345678#

Low Battery Indication
A beep sound alerts you in advance with LED indication to replace the battery.

Multi Level Volume Control
Adjust volume with mute function for silent operations.

Emergency Micro USB
In case the battery is completely discharged external Power Bank can be used to provide emergency power supply to operate the lock.

Wrong Password Indication
Wrong password will give a beep sound.

AA Battery Compatibility
The batteries provide extended lock functionality, eliminating the need for frequent replacements.

Free installation

Emergency micro USB

3-years warranty
